

ASS_Total_Management

„YOU keep thinking about your business
WE provide the basis!“

Situation and Challenge

Total Management (TM) does not only include technical, organizational and business-management aspects, but especially human resources.

So as a holistic management system TM refers to the holistic consideration and implementation of:

- **Quality Management Systems (QMS)**
- **Environment Management Systems (EMS)**
- **Occupational Health & Safety Management Systems (OHSMS)**
- **Emergency Systems**

to improve the whole value-added chain.

ASS.TEC supports ist customers::

- in collecting and improving all enterprise processes and the documents accompanying these processes
- in introducing and coaching of IT tools for the documentation of processes
- in setting up and continuously improving your QMS according to DIN ISO 9001 and ISO/TS 16949, EMS according to DIN ISO 14001, and OHSMS in compliance with OHSAS 18001 and SCC
- in consulting regarding the integration of QMS, EMS and OHSMS
- by providing external agents for:
 - Quality Management Agents
 - Environment Management Agents
 - Security Specialists
 - Agents for Events of Fault
 - Agents for Waste Disposal
- in processing audits
- in preparing for certification audits
- in processing danger assessments and danger evaluations in accordance with Occupational Health & Safety Regulations, Industrial safety regulations and the

TQM

- **Total**
